Discipline Training

Adventure-based training programmes organized by the Navigator Ltd were provided to F3C, D, F4 and F6 all classes. Higher level of learning motivation, stronger class cohesiveness and better sense of belonging were obviously demonstrated right after the camp. Most students regarded this activity as memorable experience. Most teachers considered this function as worthwhile if proper follow up work was done by class teachers concerned.

The programme will be made spiral curriculum for F3, F4 & F6. Footdrill training offered to all F1 students will be extended to all F1 & F2 students in 06-07.

Leadership Training

The programme was well accepted as good induction for perfects and house leaders. Content related to assertiveness and communication skills is regarded as beneficial to students' personal and social development.

Remedial Training for English and Bridging Programmes for Mathematics and English

Bridging programmes containing Putonghua and English phonetics and usage revision are good practices to be continued in the coming future. Such preparatory courses better prepare P6 students for F1 Chinese which is taught in Putonghua and subjects taught in EMI.

Remedial programmes for English, Chinese and Mathematics do not induce very encouraging improvements among low achievers. However, such programmes can batch up foundations among the low achievers.

Enhancement language programmes focusing on lively presentation skills, interactive communication skills and creative writing can further elevate standards of the high achievers.

Esteem Enhancement Programme

This thematic whole-school programme was a tremendous success in terms of its comprehensiveness, substance and forms. Multifaceted programmes operated in concerted effort include exhibitions, booth games, wall picture creation, inter-class competition, poster design and self portrait.

Annual thematic guidance programmes will further be launched for those treasured values of the school.
