Discipline Training

The Navigator Training Centre is invited to organize adventure-based training programmes for students at all levels. The learning motivation, class cohesiveness and sense of belonging among students are enhanced. Most students regarded this activity as memorable experience. Most teachers considered this function as worthwhile with proper follow up work done by class teachers concerned.

Footdrill training has been offered to F1 to F3 students. Positive changes were shown among the participants. It is expected that such trainings will continue to be launched for students at different levels.

Remedial Training for English, Chinese and Mathematics, Bridging Programmes for Chinese and English

Remedial programmes for English, Chinese and Mathematics are held throughout the year. The programmes help consolidate the foundations of core subjects among low achievers.

Bridging programmes for Chinese and English are held for new F.1 students during summer. Such preparatory courses better prepare new F.1 students to adapt to our language environment, in which Chinese is taught in Putonghua and other subjects taught in English.

Discipline Teacher

The discipline teacher assists the school to maintain orderly and decent school ethos and environment. He helps deal with late comers, supervise students in suspension class and handle thorny discipline cases. Workload of other teachers of Discipline Committee has been relieved. Improvement in students' punctuality and behaviour is obvious.
