

Important Notice

The School has long reminded all stakeholders to abide by the law under all circumstances. Time and again, all parties have been cautioned against bogus information in morning assemblies and different occasions.

Level-wise and whole-school activities have been arranged by different subjects and committees in order to enhance students' and other stakeholders' law-abiding sense, the safe use of the Internet and their scrutiny of web information. These activities help nurture all students' and other stakeholders' positive values, strengthen their self-understanding and foster their social media etiquette so that they are better equipped to distinguish between true and fake data and to be responsible netizens.

The School would like to reiterate once again that we have never authorized any groups or organizations to make any unlawful claims in our name within or outside the campus or on the Internet. Again, we hereby urge all stakeholders to follow the most updated guidelines and circulars of the Government, EDB as well as PLK, respect the law and do the duties of a decent citizen.
